SKILLS

AWS Cloud Practitioner | Typescript | JavaScript | React.js | Node.js
Express.js | Next.js | PostgreSQL | CSS frameworks
API / RESTful Architecture | Postman / Dev tools | AWS / Heroku / Vercel
Asynchronous Development | Railway / bit.io
Full Stack Software Development | Front-end Development
Back-end Development

PROFILE

A disciplined software developer and lifelong learner, I'm constantly driven to improve and become the best version of myself I can be. I thrive on the challenge of overcoming complex problems and am deeply fulfilled by my career in programming and creating. I also enjoy keeping busy through activities like rock climbing, reading, exercising, and having deep, thought-provoking conversations about tardigrades. Surrounded by supportive and inspiring people, I'm constantly motivated to keep growing and building.

PROFESSIONAL EXPERIENCE

Prime Digital Academy

2022 – 2023

Full Stack Software Engineer

Minneapolis, MN,

United States

- Implemented Javascript, Node.js, React.js, CSS/HTML, PostgreSQL, RESTful Architecture, APIs, and created full stack applications in Agile & Waterfall settings.
- Missing Link  - Bridging the untapped gap between the data of patients and their ailments, users are able to draw conclusions from seemingly unrelated attributes among those with shared conditions and diseases.
- Queerspace Collective  - With the help of my team, we centralized the company's pre-existing services, created a smooth experience for users, and provided seamless interaction between the server and client- allowing LGBTQ+ youth to develop the confidence to be themselves by optimizing their program's efficiency.

Mallards, Axel's Bonfire, Tobies Restaurant & Bakery

Waiter

- Mastered time management under pressure, resulting in higher sales and satisfaction amongst my guests.
- Requested daily by guests and received a gratuity of 20% or more which provided an objective reflection of my service.
- Curated a warm and welcoming environment for those of all genders, races, and orientations.
- Established myself as trustworthy with reliable attendance, assumed responsibilities even when they weren't given to me, and was an overall dependable asset to the teams I supported or led.

2017 – 2022

Forest Lake, Blaine,
Hinckley (MN),
United States

EDUCATION

Prime Digital Academy

2022 – 2023

Full Stack Software Engineering Certification

Minneapolis, MN,
United States

- Hosted and deployed many full stack web applications through AWS and Heroku, and others post-education.
- Contributed and led in group collaboration, encouraging those around me to play to their strengths and learn from their weaknesses.
- Version control collaboration and development ensured accountability between myself and those I worked with in an organized system.
- Wrote impactful code, which meant testing, being intentional, and being effective with the functionality and reusability of the code I crafted.

Lake Superior College

2014 – 2016

Associates

Duluth, MN, United States

- Led calm and organized radio and verbal communications within my team which resulted in successful completion of intense, real-life scenarios. This training prepared me for high stress situations and to always keep a level head.
- Completed critical, time sensitive tasks effectively and efficiently under deadlines, always within a collaborative setting.
